ANNUAL REPORT

OF THE

MUNICIPAL OFFICERS

OF THE

TOWN OF BRADLEY

FOR THE YEAR

1910-1911

This Book was printed at the office of The
Thomas W. Burr Printing Company, 27 Colum-
bia Street, Adams Building, Bangor, Maine,
who make a specialty of this line of Printing,
but who also do almost anything in the line of
Book and Job Printing---and most respectfully
solicit your patronage. Prices always right.

The Shaw Business College

calls attention to the fact that the Bangor Daily News during a period of 15 months had in its local columns 301 instances of students of this school taking positions. The school has recently enlarged its quarters and no business college in Maine has quarters that are in a class with it. Free catalogue.

GEO. D. HARDEN, Treasurer

YOU HAVE SOME PRINTING DONE ?

Of course you want it done right, you want it to be your good representative in many instances—poor unworkman-like printing is very expensive at any price. We do the best and do it at fair prices.

We would like to count you among our regular customers and will do our very best to please you in quality, workmanship and price.

We do all kinds of Book and Job Printing---nothing too large---nothing too small. Some of the things we do:

Letter Heads, Packet Heads, Bill Heads, Note Heads, Statements, Envelopes, Checks, Notes, Receipts and all kinds of Municipal Blanks, Society and Wedding printing, Circulars, Announcements, Business Cards, Handbills, Posters, Books, Pamphlets---in fact we do almost anything in the way of printing.

We have the best equipped plant in the State, and carry the largest stock of papers of any printing office east of Boston. We will appreciate your favors in this line.

CLOTHING FOR 1911

You'll begin pretty soon to think about getting some new clothes. If you bought Hart, Schaffner & Marx clothes last year, they're probably good for another season; that's the kind of clothes they are.

As soon as you make up your mind that you're going to have new clothes, we want to show you the new things from Hart, Schaffner & Marx; some special new models in young Men's styles that will make the young fellows open their eyes.

Lots of other good things to wear, of course; we can outfit you completely. Glad to see you whenever you're ready.

In regard to the work done in the schools, I wish to say that the same line of work has been carried out in the past year, as in the year before, and as a whole the schools have proved very satisfactory. Nearly all the teachers engaged have had previous experience. Some have met with better success than others but taking all into consideration there has been good work accomplished.

Am sorry to find by looking over the Registers, so few parents have visited our schools. What can you know about a school when

you have not been inside the school room during the year? I would especially urge the parents to visit the schools, and see the daily work of their children. By doing this many little misunderstandings might be avoided.

I wish to speak of the good results obtained from having a few weeks added to the length of the school year. It has made the work much easier, both for pupils and teachers, as they have not been obliged to crowd their work, as had to be done before.

In closing I wish to extend thanks to all who have given me their aid and sympathy during the past year.

Respectfully submitted.

MRS. EDITH C. KNAPP,
Supt. of Schools.

SHOES

After two years of careful study of the Shoe Business, we are sure we have the best values and the largest assortment of styles to select from of any store in Maine.

Our line for Spring 1911 is larger and better than ever, including such shoes as the Educator for Men, Women and Children, the Emerson shoe and the Regal shoe. We also make a specialty of the Grover hand sewed shoe for tender feet, and carry in stock widths from AA to EE.

REMARKS

Mrs. Edith C. Knapp, faithfully performed all duties devolving upon her as Superintendent of schools until my term of service began May 16, 1911. I highly commend the excellent work which Mrs. Knapp has done in the schools of Bradley.

The schools have been generally under competent instruction and the apparent results are sound. The real teacher is much more than a propounder of facts and principles. She is a character builder who has sown seed which may bear good fruit now and hereafter.

The village schools have been especially favored in the continued and efficient services of Miss M. Jennie Greene, Grammar school, Miss Marjorie K. Burr, Intermediate and Mrs. Jennie M. Butterfield, Primary school. The resignation of Mrs. Butterfield is much to be regretted.

Miss L. Celia Silsby taught the spring term of the Knapp school. Miss Silsby had received some normal training and was not without experience. She was succeeded in the fall by Miss Bernice Rich whose educational advantages particularly fits her to impart knowledge to others. Miss Bessie E. Coulter succeeded Miss Rich. Miss Coulter's attitude towards children inspires confidence and co-operation. The school year may be regarded as a successful one. Each teacher did much to maintain pleasant relations in the school.

Miss Clara B. Day had charge of the Blackman school during the Spring term. Miss Hazel Butterfield succeeded Miss Day but was unable to complete the term which was finished by Miss Catherine Tear who took the school after Miss Edgerley had substituted two weeks for Miss Butterfield. The teachers succeeded each other so promptly and adjusted themselves so readily to the work that the

school continued to prosper. Mrs. Mildred V. Harris was followed during the winter term of school by Miss Gertrude E. Bailey who was called home one week early. Good work was done however and comparatively good results followed. The school is in good working condition.

Much credit is due the teachers in the schools of Bradley for their profitable endeavors.

I appreciate the spirit of co-operation evinced by teachers, superintending school committee and others.

Respectfully submitted.

GERTRUDE E. GIFFORD,

Supt. of Schools.

Warrant

TO GEORGE W. MOULTON, a constable in the TOWN OF BRADLEY
GREETING:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of said town of Bradley qualified by law to vote in town affairs to assemble at the town hall in said town on the 25th day of March, 1912, at ten (10) o'clock in the forenoon, to act on the following articles, to wit: —

OUR MATING PENS FOR 1913

Have selected for mating pens about four hundred birds of standard size and color, excellent types and vigor, first class Orpington in every way.

DAY OLD CHICKS

We guarantee safe delivery and strong, healthy chicks. The demand for DAY OLD CHICKS is so great we have decided to sell a limited number this season. Last season we were unable to do this as our sale for eggs exceeded our supply, but we now have four hundred mated birds which will supply us with a sufficient quantity of eggs for this purpose.

FERTILITY OF EGGS

We will guarantee satisfactory hatches from our eggs. Our aim is to have satisfied customers and we will do our part and more if necessary to bring about this result.

PRICES: THOROUGH-BRED BRED-TO-LAY

| | | | |
|---------------------------|---------------|---------------|--------------------------|
| EGGS FOR HATCHING: | 13 for \$2.50 | 50 for \$7.00 | 100 for \$12.00 |

REMARKS

The schools have continued to prosper during the past school year. Efficient teachers cannot fail to produce sound results. Parents promote system and discipline by co-operation with teachers. Absence from school should not be tolerated unless imperative. Regularity of attendance is essential to the common good of a school. Punctual habits may prove invaluable.

I am glad to note an increased number of visits by citizens.

The renovation of walls and ceilings throughout the school houses has given the rooms a more cheerful aspect. School rooms should be attractive places ; growing attention is everywhere being given to this matter. Observing Arbor Day for the purpose for which the day is appointed would eventually improve the school grounds.

Bradley grammar school has reached a high standard through the well directed efforts of Miss Greene, whose work demonstrates itself in practical results.

Miss Burr who has charge of the Intermediate school has given her best work which has been attended by excellent progress.

Miss Gertrude E. Bailey taught the Primary school during the Spring term ; her work was systematic and thorough. Miss Bernice Rich continued with the work during the fall and the winter terms of school ; the children have made marked progress in all respects. Miss Rich is an energetic and progressive teacher whose withdrawal from the teaching force is to be regretted.

The Knapp school has been fortunate in the service of Miss Hazel Butterfield who has been tireless in her efforts. The school has been interrupted by sickness and its numbers lessened by death. " The Lord giveth and the Lord taketh away."

Miss Adria M. Pratt, who taught successfully the Blackman school during the Spring and Fall terms of school was succeeded by Miss Marjorie Mann who is continuing the good work.

Hoping that thirty-seven weeks will continue to be the minimum number of weeks and thanking the public for co-operation, I respectfully submit this report.

GERTRUDE E. GIFFORD,
Supt. of Schools.

School Report

TO THE CITIZENS OF THE TOWN OF BRADLEY:

I herewith submit my third annual report of schools for the year ending March, 1914.

TEACHING SERVICE

The schools have prospered signally during the past school year under the instruction of teachers who have striven faithfully and efficiently for the best results. The importance of retaining capable teachers can not be overestimated and herein lies the present strength of the schools of Bradley. These schools are steadily marching onward to a higher plane because the teachings are both practical and progressive. The social features developed in the grammar school department have demonstrated the value of such a movement.

ATTENDANCE

Altho the attendance has not been all that it should be yet it is encouraging to note that the yearly average attendance is somewhat greater than that of the previous year. While it is sometimes necessary for scholars to be tardy or dismissed, I would urge upon parents the necessity of having their children form punctual and regular habits of attending school. Children too frequently coming late to school or leaving before the close of school must necessarily retard their own work in addition to some other disadvantages. Punctual and responsible habits are readily formed in childhood and not easily overcome later in life. The schools have been singularly free from contagious diseases which fact has doubtless given rise to the increased average attendance.

TRANSPORTATION

Scholars from the Knapp School were transported for the winter term of school to the village schools which arrangement was both profitable and economical. The S. S. Committee may suspend a school for one year when such school has too few scholars for its profitable maintenance, altho showing a previous yearly average of eight or more scholars. I would recommend to the town the advisability of continuing this arrangement.

REPAIRS

The Knapp schoolhouse was newly shingled during the year. A closet for books and supplies was built and installed in an anteroom of the Intermediate school department where it is easily accessible. This receptacle for school supplies fills an important place in the repair items. A closet for books is needed in the Primary school department.

It would be well in the near future, if not this year, to make the repair appropriation large enough to install natural slate boards in all school rooms in place of the blackboards now in use. Approximate cost, \$55.00. The four slate boards recently installed in the grammar school room verifies the advantages of such boards.

A scientific system of heating would add to the comfort of the scholars and teachers and I assume that this matter will be considered definitely in the near future by the Citizens.

The rooms are well lighted with the exception of the primary room and the intermediate room where the light comes wholly from the front and the rear of the room, but this cannot well be corrected because of the plan of the building.

CONCLUSION

I wish to thank the teachers, the school officers and all other persons who have cooperated with me in school service in the Town of Bradley.

Respectfully submitted,

GERTRUDE E. GIFFORD,

Superintendent of Schools.

Chapter 148.

An Act to Amend Section Two of Chapter Fifteen of the Revised Statutes, as Amended, in Relation to the Continuance of Schools Failing to Maintain an Average Attendance of at Least Eight Pupils. Be it enacted by the People of the State of Maine, as follows:

Section two of chapter fifteen of the Revised Statutes, as amended by chapter ninety of the public laws of nineteen hundred seven, is hereby amended by inserting after the word "meeting" in the sixteenth line thereof the words "or at a meeting called for that purpose," so that said section when amended shall read as follows:

Appropriat

Tuition fro

'Section 2. The location of any school legally established prior to March seven-
teenth, eighteen hundred and ninety-three,
continues unchanged, notwithstanding the
district is abolished; but any town at its
annual meeting, or at a meeting called
for the purpose, may determine the number
and location of its schools, and may dis-
continue them or change their location;
but such discontinuance or change of loca-
tion shall be made only on the written
recommendation of the superintending
school committee, and on conditions proper
to preserve the just rights and privileges
of the inhabitants for whose benefit such
schools were established; provided, how-
ever, that in case any school shall hereafter
have too few scholars for its profitable
maintenance, the superintending school
committee may suspend the operation of
such school for not more than one year
unless otherwise instructed by the town,
but any public school failing to maintain
an average attendance for any school
year, of at least eight pupils, shall be and
hereby is suspended, unless the town in
which said school is located shall by vote,
at the annual meeting, or at a meeting called
for that purpose, after the said commit-

An Act to Amend Section Thirteen of Chapter Four of the Revised Statutes as Amended by Chapter Seventy-nine of the Public Laws of Nineteen Hundred Seven and as Further Amended by Chapter Two Hundred of the Public Laws of Nineteen Hundred Nine, Relating to the Election of Road Commissioners.

Be it enacted by the People of the State of Maine, as follows:

Section thirteen of chapter four of the revised statutes as amended by chapter seventy-nine of the public laws of nineteen hundred seven and as further amended by chapter two hundred of the public laws of nineteen hundred nine is hereby further amended by striking out between the word "elect" in the first line of said section and the word "by" in the third line the following words: "and all towns with over sixty-five hundred inhabitants shall elect" so that said section thirteen of chapter four of the revised statutes as amended shall read as follows:

"Section 13. Each town at its annual meeting may elect by major vote a road commissioner, who shall hold his office for the term of one year from the date of his election, or for the term of three years from the date of his election if the town shall so vote. Any town may, at its option, elect not more than three commissioners, whose powers and duties shall be the same as prescribed for a single commissioner. No person shall, at the same time, hold the office of road commissioner and selectman.

(Approved March 18).

Section 9. State highways shall be continually maintained under the direction and control of the commission at the joint expense, as hereinafter provided, of the state and the town in which the same are located; the charge against such town for maintenance of its state highways shall be the actual cost of such maintenance but not exceeding an average of sixty dollars per mile per annum, but the commission may in respect thereto grant to such towns such financial assistance as it deems advisable. The provisions of this section shall apply only to those state highways constructed and improved by the state under this act, and to such other portions of designated state highways, to the improvement of which the state has heretofore contributed, as the commission may hereafter indicate as taken over by it, and the commission shall as rapidly as it deems advisable take over such highways for the purpose of maintenance as herein provided.

REPAIRS

UPERINTENDI

An Act to Amend Sections Thirteen, Fourteen and Fifteen of Chapter Four of the Revised Statutes, as Amended, Relating to the Appointment of Road Commissioners by the Selectmen.

Be it enacted by the People of the State of Maine, as follows:

Section 1. Section thirteen of chapter four of the revised statutes as amended by chapter seventy-nine of the public laws of nineteen hundred seven and as amended by chapter two hundred of the public laws of one thousand nine hundred and nine is hereby further amended so that said section shall read as follows:

"Section 13. The selectmen of each town shall annually choose by written appointment a road commissioner who shall hold his office until the first Monday of April in the year following; provided, however, that selectmen may so choose such commissioner for a longer term, not exceeding three years. Any town may, at its option, vote to have not more than three road commissioners whose appointment, powers and duties shall be the same as prescribed for a single commissioner. Any road commissioner may be removed from office by the selectmen for incompetency or neglect to perform his official duties. Selectmen may act as road commissioners."

Section 2. Section fourteen of chapter four of revised statutes is hereby amended by striking out the words "and road commissioners" in the second and third lines thereof, also by inserting the word "and" before the words "town agent" in the second line, so that said section shall read as follows:

"Section 14. Moderator, town clerk, selectmen, assessors and overseers of the poor, treasurer, auditor, school committee and town agent shall be elected by ballot, and the other said officers by ballot, or if not so elected, they shall be appointed by the selectmen. The town agent shall act under the direction of the selectmen, and shall receive from the treasury of the town such compensation for his services as may be fixed by vote of the town; otherwise, as the selectmen shall allow."

Section 3. Section fifteen of said chapter four as amended by chapter two hundred sixty-one of the public laws of nineteen hundred nine is hereby further amended so that said section shall read as follows:

"Section 15. If a person appointed as road commissioner fails to qualify within seven days after appointment, the office shall be deemed vacant, and shall be filled by the selectmen by appointment; and in the event of a vacancy caused by death or otherwise, the selectmen shall appoint some competent person to fill out the unexpired term, who shall qualify and perform the duties of said office. If after the choice of any officer not required

to be chosen by ballot, there is a vacancy in any such office, the municipal officers may fill such vacancies by the written appointment of proper persons, who shall be summoned by the constable to appear and take oath of office provided in section twenty-five subject to the penalties provided in section twenty-six. Such appointment and oath shall be recorded as in case of a choice by the town. No person shall be so appointed without his consent.

Section 4. This act shall not apply to road commissioners chosen under existing law nor abridge their term of office; this act shall apply to their successors in office; nor shall this act apply to cities or towns which choose road commissioners under special acts of the legislature.

(Approved April 12).

Section 17. Municipal officers shall design such practicable systems of public works within their jurisdiction as will best serve outlying communities, connect adjoining towns and villages, and facilitate travel in reaching markets, railroad connections and state roads; due consideration being given to cost as well as distance and time of travel. A suitable description of such work shall be thereupon presented to the commission for its approval, upon the same being approved and accepted by the commission said work shall be finished and known as a state aid highway.

Twenty or more voters in any such town by written petition, presented within ten days after the description of such work has been filed with the commission, shall have the right to be heard on the acceptance thereof; and the commission may accept or reject any part or all of such work upon proper terms in respect thereto.

Section 18. State aid highways shall be lawfully maintained under the direction and control of the commission at the joint expense of the state and town in which the same are located; the charge against a town for maintenance of its state aid highways shall not exceed fifty per cent of the actual cost of such maintenance nor an average of thirty dollars per mile per annum. The provisions of this act shall apply only to those state aid highways constructed and improved by the state under this act, and to such other highways of designated state aid highways, the improvement of which the state has heretofore contributed, as the commission hereafter indicate as taken over by it, and the commission shall as rapidly as it may be advisable so take over such highways for the purpose of maintenance as herein provided.

Section 19. If any town desires state aid as provided by this act, for the building or permanent improvement of one or more of its state aid highways, such town may raise and appropriate in addition to the amounts regularly raised and appropriated for the care of ways, highways and bridges the following amounts on account of which state aid shall be paid:

Towns having a valuation of two hundred thousand dollars or less may appropriate any amount not exceeding three hundred dollars; towns having a valuation of over two hundred thousand dollars and not over one million dollars may appropriate an amount not exceeding five hundred dollars; and towns having a valuation of over one million dollars and not over three million dollars may appropriate in addition to the sum of six hundred dollars an additional sum of sixty-six dollars for each two hundred thousand dollars or fraction thereof valuation in excess of one million; towns having a valuation of over three million dollars and not over five million dollars may appropriate not exceeding one thousand three hundred and thirty-three dollars; and towns having a valuation of over four million dollars may appropriate in addition to the sum of one thousand three hundred and thirty-three dollars an additional sum not exceeding one thousand and thirty-three dollars for each additional one million dollars of additional valuation.

Section 20. On or before the thirty-first day of December in the year nineteen hundred and thirteen, and thereafter annually between the fifteenth day of July and the fifteenth day of August in each year, municipal officers shall prepare and file with the commission suggestions for the improvement during the next calendar year of state aid highways located in each town accompanied by plans so far as practicable, setting forth the location of the highway and the nature of the improvement desired. The commission shall examine and report thereon with its recommendations to such municipal officers on or before the twentieth day of February following. Such report shall be submitted to the voters of such towns at the next regular meeting of such town. The municipal officers shall insert in the warrant for each annual town meeting an article calling upon the voters to vote "yes" or "no" on the question of the appropriation of money necessary to entitle the town to state aid for state aid highways for that year. If any such town then appropriates money for work contemplated in such report, and for the purpose of securing state aid as provided in this act, the municipal officers shall forthwith notify the commission of the amount so appropriated. The commission shall thereupon finally approve, change or disapprove such action, in whole or in part, as the appropriation and conditions require, and shall notify the municipal officers of its action. This section shall not prohibit towns from voting to do either more or less highway improvement than that contemplated in such report or from making any appropriation under the terms of this act. Towns failing to comply with the provisions hereof shall not be entitled to state aid for the year when such state aid otherwise would be available under this section.

Section 21. The commission from the fund for state aid construction provided by this act shall to each town which has conformed to the provisions of sections nineteen and twenty for each dollar so appropriated apportion the following amounts: to each town having a valuation of two hundred thousand dollars or less, two dollars for each dollar appropriated by said town; to each town having a valuation over two hundred thousand dollars and not over one million dollars, one dollar for each dollar appropriated by said town; to each town having a valuation of over one million dollars and not over one million two hundred thousand dollars, ninety-two cents for each dollar appropriated by said town; to each town having a valuation of over one million two hundred thousand dollars and not over one million four hundred thousand dollars, eighty-five cents for each dollar appropriated by said town; to each town having a valuation of over one million four hundred thousand dollars and not over one million six hundred thousand dollars, eighty cents for each dollar appropriated by said town; and to each town having a valuation of over one million six hundred thousand dollars, seventy-five cents for each dollar so appropriated by said town. The money appropriated by towns applying for state aid as hereinbefore provided with the amount apportioned by the commission as hereinbefore provided shall constitute a joint fund for the construction and permanent improvement of the state aid highways in such towns.

Report of School

To the citizens of the town of Bradley:

I hereby present my fourth annual report of schools for the year ending March, 1915.

TEACHING SERVICE

The teachers performed their duties as they understood them, subject to training, fitness and scholarship. No true teacher is satisfied with his or her attainments, but is ever striving to strengthen the work.

Grammar School

The grammar school was fortunate to continue in charge during the spring term of Miss M. Jennie Greene who so well understands the need of the school and the special training necessary to prepare the ninth grade for secondary school work. Miss Greene has been an inspiration to the boys and girls of Bradley because she always kept before them a high mental and moral standard. The school officers, parents and other citizens have deeply appreciated the service which Miss Greene has performed in the interests of Bradley's boys and girls. Her resignation was unwillingly accepted at the close of five years of live work in Bradley. Miss Greene was succeeded in the fall by Lizzie K. Jones of Bangor who has discharged her duties in a highly satisfactory manner; Miss Jones returns for the spring term.

Intermediate School

The spring term of intermediate school was taught by Miss Margie K. Burr whose reputation as a first class teacher has earlier established itself in Bradley; Miss Burr withdrew at the close of the spring term and was succeeded by Miss Hazel Oakes of Milford who is a normal school graduate and a young woman of ability, she had excellent methods of teaching and the children continued to do good work. Miss Oaks declined to return and accepted a position in the Gardiner schools. Bradley was glad to welcome Miss Burr back again for the winter term of school. Miss Burr returns.

Primary School

Miss Bessie Coulter severed her connection with Bradley primary school at the close of the winter term. Miss Coulter labored faithfully and successfully for the physical, moral and mental welfare of the children entrusted to her care; her resignation will be regretted. Miss Gertrude M. Connor of Brewer, succeeds Miss Coulter, Miss Connor has prepared specially for primary work.

Blackman School

The Blackman school was taught during the spring term by Miss Lena Coulter who has been signally successful in her schools, most harmonious and otherwise fortunate relations existed between the children and the teacher and the school was attended by those results for which schools are maintained. Miss Helen O. Additon of Dexter, taught the fall term of school, Miss Additon was a faithful teacher and worthy of appreciation; Mr. David Garceau followed Miss Additon with a marked degree of success. A growing interest in the work seems to have been aroused in the school. We are glad to know that he will return.

ATTENDANCE

Altho the average yearly attendance is somewhat larger than that of the preceding school year the numerous cases of tardiness and unnecessary instances of dismissal should not be tolerated. There have doubtless been some unnecessary cases of absence notwithstanding the fact that excuses were usually given. I would urge all parents to exact of your children correct habits of school attendance, thereby, saving both them and yourself from undesirable embarrassment which is clearly defined in the "School Laws of Maine," Chap. 15, Compulsory Education.

UNION OF SCHOOLS AND TRANSPORTATION

Conditions controlling the transportation of children in Bradley are unusually fortunate. The distance is so short that children suffer no inconvenience from severe weather or from weariness. The union of the Knapp school with the village schools has prospered exceedingly and it is generally agreed that the change in regime was both economic and progressive.

REPAIRS

The equalization fund apportioned by the State made possible the repairs on Blackman school outhouses which were much needed. I would suggest the installment of a roomy bookcase in the primary room?

CONCLUSION

Thanking school officers, teachers and others for their co-operation, I respectfully submit this report.

GERTRUDE E. GIFFORD,

Supt. of Schools.

Warrant

To *George W. Moulton*, constable of town of Bradley, *Greeting:*

In the name of the State of Maine, you are requested to notify and warn the inhabitants of said town of Bradley, qualified by law to vote in town affairs to assemble at the town hall in said town on the 26th day of March, A. D. 1917, at ten o'clock in the forenoon to act on the following articles, to wit:

Art. 1. To choose a moderator to preside at said meeting.

Art. 2. To choose a town clerk for the ensuing year.

Art. 3. To choose three or more selectmen for the ensuing year.

Art. 4. To choose three or more assessors of taxes for the ensuing year.

Art. 5. To choose three or more overseers of the poor for the ensuing year.

Art. 6. To choose a treasurer for the ensuing year.

Art. 7. To choose one member of the school committee for three years.

Art. 8. To choose one or more fire wards as required by Chapter 108, Public Laws of Maine, 1913.

Art. 9. To see if the town will vote to contract for a term of years with the Bangor Power Co., for the street lights and furnish a few more lights and raise and appropriate money for the same.

Art. 10. To see what sum of money the town will raise and appropriate for support of common schools.

Art. 11. To see what sum of money the town will raise and appropriate for the purchase of school books.

Art. 12. To see what sum of money the town will raise and appropriate to purchase apparatus and appliances for common schools.

Art. 13. To see if the town will vote to raise and appropriate the sum of \$49.00 to pay interest on school fund.

Art. 14. To see what sum of money the town will vote to raise and appropriate to pay tuition of scholars attending schools out of town.

Art. 15. To see if the town will raise and appropriate money to pay the superintendent of schools.

Art. 16. To see what sum of money the town will raise and appropriate for the repairs of school buildings.

Art. 17. To see what sum of money the town will raise and appropriate for the repairs of highways and bridges.

Art. 18. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid as provided in Section 20, Chapter 130, Public Laws of 1913.

Art. 19. To see if the town will raise and appropriate \$533.00 for the improvement of the section of State aid road as outlined in the report of the State highway commission in addition to the amount regularly raised for the care of ways, highways and bridges, the above amount being the maximum which the town is allowed to raise under the provisions of Section 19 of Chapter 130 of the Public Laws of 1913.

Art. 20. To see if the town will vote to raise and appropriate money to be expended for the maintenance of State highways already constructed in town.

Art. 21. To see what sum of money the town will raise and appropriate for the repairs of sidewalks.

Art. 22. To see if the town will raise and appropriate the sum of \$70.00 to correct last year's mistake in the report of the State.

SCHOOL REPORT OF TOWN OF BRADLEY

1916-1917

To the Citizens of the town of Bradley:

I hereby present the annual report of schools for the year ending March, 1917.

INSTRUCTORS—SCHOOLS

Grammar School

Miss Jones closed her term of service with the spring term of school. The work was efficiently done and marked progress was made. Thirteen of the scholars were very well prepared for examination for tuition certification. Miss Hester Clark taught the fall and the winter terms of school with most desirable results. Her instruction and discipline were excellent and the children responded fully. Miss Clark's early withdrawal is regretted.

Intermediate School

Mrs. Spruce continues in charge of the intermediate school, which has prospered signally under her capable instruction and firm discipline. Mrs. Spruce's grade work was increased at the beginning of the fall term by the addition of second grade children whom she volunteered to teach in order to relieve the congested condition of the primary room.

Primary School

Miss Connor thoroughly understands primary work and the needs of the children intrusted to her care and interests herself in their welfare.

Knapp School

The Knapp school has done a satisfactory amount of work under Miss Mann's competent instruction and discipline. The teacher introduced many interesting features to relieve the routine of work and interest the children.

Blackman School

The Blackman school was taught during the greater part of the year by Mr. David Garceau, who faithfully discharged his duty under many trying conditions. Irregularity of attendance interrupts the work and retards the child's progress. Mr. Urann was somewhat misunderstood. There is no excuse for insubordination on the part of scholars. It is their business to obey and it should not be necessary for any teacher to resort to a cudgel.

TEXT-BOOKS—SUPPLIES

I would recommend a change of arithmetics and grammars and more reading books for the children. The appropriation must be large to admit of changes and the usual replacement of worn text-books. Paper has so rapidly risen in price that double allowance should be made for this supply.

FLAGS—STAFFS

Since it is incumbent upon towns to furnish the schools with flags and staffs, I would suggest that a suitable staff be erected at the Blackman school.

REPAIRS

The hard wood floors in the primary and the intermediate rooms adds to sanitation. The rooms are more attractive in appearance and more easily kept clean.

A roomy book-case is needed in the primary schoolroom where books may be kept when not in use and other supplies which every teacher needs.

The interior of both the Blackman and the Knapp school needs renovation. The ceiling and the woodwork of the Blackman room would be improved by painting. I would suggest for the walls a material like the ceiling. The seats in the Knapp school are especially worn. The appearance of old seats and desks is improved by staining and varnishing. Hard wood floors are in order for favorable consideration in these rooms and the grammar school room.

The school buildings are in good exterior condition and the Primary and the Intermediate rooms are very modern.

FIRE ESCAPE

I am calling your attention to the fact that the means of egress from the grammar school room is insufficient in case of fire.

APPROPRIATIONS

I would suggest an increased appropriation for schools and textbooks. Teachers should receive a wage which is adequate to the increased cost of living.

CONCLUSION

Thanking the members of the Superintending School Committee, teachers and all others who have co-operated with me in the interests of the school, I respectfully submit this report.

GERTRUDE E. GIFFORD,

Superintendent of Schools.

School Report

To the Citizens of the Town of Bradley:

I herewith present the annual report of schools for the year ending March, 1918.

GENERAL PROGRESS

The teachers of the Grammar, Intermediate, Primary and Knapp schools exacted of the children their best efforts and excellent work was done generally throughout the year in the grades.

The Blackman school suffered some interruptions during the Fall and the Winter terms which were unnecessary and attended by unsatisfactory results. Satisfactory discipline was maintained in most cases. Good order is a prime essential of any school. Teachers should not be held responsible for the faults of children which the parents fail to overcome.

ATTENDANCE

The cases of tardiness were altogether too numerous. The work is interrupted and retarded by frequent cases of this kind. It is the duty of parents to have their children attend school regularly and punctually. While irregularity of attendance was conspicuous during the Fall and the Winter terms of the Blackman school, the record of attendance for the Spring term shows a good average, and a corresponding degree of interest and progress.

TEXT-BOOKS

The adoption of a new series of arithmetics and of grammars is desirable. Additional reading books are needed as children tire of reading the same selections too often. There are always old books to be replaced each year but scholars should not be encouraged to think that books must be discarded simply because they are worn. Shabby books are not always old and can often be used for some time by exercising care. Text books are too expensive to lay aside unless the pages are missing. Children who receive new books should keep them cleanly covered and free from pencil and finger marks. Credit is due many children for their well kept books.

| Estimated appropriation..... | \$130 00 |
|------------------------------|----------|

REPAIRS

The chairman of the superintending school committee gave careful and personal attention to the repairs made on the school buildings. The rural schools were improved by hardwood floors which have long been needed. The grammar school room is now the only one without a floor of this kind. It was necessary to purchase a new stove for the Blackman school. Repairs on the outhouses will be in order under the new appropriation.

FIRE ESCAPE

The means of egress from the grammar schoolroom are not in accordance with the requirements of the School Laws of Maine.

FLAGS—STAFFS

In view of the fact that it is incumbent upon towns to furnish schools with flags and staffs, I would call attention to the need of a suitable staff at the Blackman school and a rope for the staff at the

Knapp school. In accordance with the school laws of Maine, the flag shall be displayed on appropriate occasions. It is the duty of instructors to teach the children to love, honor and respect the flag of our country by suitable references and observances.

Estimated appropriation.....\$20 00

CONCLUSION

Thanking the members of the superintending school committee, teachers and others who have co-operated in the interests of the schools, I respectfully submit this report.

GERTRUDE E. GIFFORD,
Supt. of Schools.

School Report

March, 1919

To the Citizens of the Town of Bradley:

VILLAGE SCHOOLS

The Primary and the Intermediate schools will continue under the instruction of the same teachers. The instructors of the lower grades have many demands made upon their patience and care which are not necessary among older children. This is especially true of teachers of the primary grades. This personal care is a very important part of the work and this fact should be appreciated by the parents. The duties of the teachers of these schools have been efficiently and profitably performed.

The interest and general progress of the Grammar school are worthy of commendation. Since the winter term continued in session but six weeks the spring term will be correspondingly lengthened.

RURAL SCHOOLS

Most excellent discipline and interest prevailed during the year in the Blackman school and a strong spirit of co-operation existed between the parents and the teacher.

The teacher of the Knapp school was without previous experience in teaching but many good features developed in the work and most pleasant relations existed between the children and the teacher.

Both teachers are engaged to return for the spring term of school. Real teachers do much more than conduct recitations and exercise discipline—they build character day by day and train for future citizenship.

ATTENDANCE

Many cases of absence from school were not satisfactorily explained. Parents who persist in this course will invite legal action to enforce the regular attendance of their children at school.

Sickness interrupted the work and lessened the number of weeks in the school year in all but the Blackman school which maintained its anticipated number of weeks.

TEXT BOOKS

Less than usual was expended for text books as only much worn copies were replaced by new books. No changes were made in the standard books but a new series of arithmetics and grammars would be in order. The schools were supplied with manuals for teaching the "Palmer Method of Writing." I would suggest the usual appropriation for text books.

REPAIRS

Rather extensive repairs are needed on the Blackman schoolhouse chimney and the interior is in general need of renovation.

FLAGSTAFFS

Since the necessary cost of the display of the flag shall be defrayed by an appropriation which shall be separate from and additional to all other appropriations for schools, I would suggest an appropriation of \$15 for this purpose. It is the duty of the superintendent of schools to see that the flag is displayed from the public school buildings on appropriate occasions. It is also the duty of the superintendent to report annually to the town the amount necessary to furnish the public schools with suitable flags and flagstuffs.

FIRE ESCAPE

A substantial fire escape was attached to the village school building which provides another means of egress from the Grammar school in accordance with the "School Laws of Maine."

CONCLUSION

Thanking you for your cooperation in promoting the welfare of the schools, I respectfully submit this report.

GERTRUDE E. GIFFORD,
Superintendent of Schools.

School Report

To the Citizens of the Town of Bradley:

I have the honor of submitting to you the school report of the Town of Bradley for the year ending March, 1920.

The schools have retained the same teachers during the fiscal year with the exception of the Knapp School where a vacancy occurred at the close of the Spring term.

The teachers have worked for the advancement of their children and as a whole the results have been good. The highest degree of efficiency is always attained when the teacher has the confidence of the parents.

The children who attend school regularly get more from the work than those who are occasionally absent. It is well to remember that irregularity of attendance lessens the child's interest, retards his progress and reduces his prospect of promotion.

Parents: Please do not detain your children at home or request teachers to excuse them unless altogether necessary.

TEACHERS' WAGES

If teachers of inexperience and no special preparation for the work demand a living wage, teachers of successful experience and preparation are entitled to a thrift wage. Teachers' wages should not be increased indiscriminately but with reference to their fitness and efforts for self improvement.

TEXT-BOOKS—COURSE OF STUDY

"The Progressive Road to Reading" is used successfully in the primary grades; the children learn to read readily and with comprehension by this method. Reading is fundamental and should be highly developed.

No change of standard text-books was made but a new series of arithmetics and grammars is again recommended. I would suggest that this change be made at the close of the present school year. New reading books are also needed in some of the grades.

The course of study furnished by the State requires for the sixth grade a history which will cover the European background for American history and the "Story of the Old World" was purchased for use in that grade.

The Palmer Method of writing is used in the schools. While improvement is shown in many grades we shall emphasize writing more strongly.

The drawing of maps and conventional designs will be given definite attention.

The cost of paper which is large is always amply provided for in an appropriation covering supplies.

(Appropriation for text-books suggested in appendix)

VICTROLA

The victrola is used daily by the Village schools with profit and pleasure. As an accompaniment for school singing, drills, marches and folk dancing it is unexcelled. It has also a very practical use on the program at school entertainments held in the building. A substantial sum of money has been raised for a cabinet for the records which are excellent and varied and well worth preserving.

The Blackman school has something toward the purchase of a phonograph and much credit is due the school for this effort.

FLAGS—STAFFS

The flag staffs should be set in order for the proper display of the flag

SCHOOL BUILDINGS

A hardwood floor would improve the grammar school room and the walls, ceiling and wood-work of the rural school buildings need renovation.

The out-houses of the village schools are unsanitary and often in a condition which renders them unfit for use. Chemical closets are essential here. Repairs on the rural out-buildings are necessary.

School officers, teachers and parents must co-operate to correct these conditions. The immediate solution seems to be someone hired to give this matter daily attention.

CONCLUSION

Thanking the town officers, teachers and others who have co-operated for the welfare of the schools, I respectfully submit this report.

GERTRUDE E. GIFFORD,

Superintendent of Schools.

Report of the Health Officer

Bradley assisted in forming the first health union in the State. Major Albert Buck was the first health officer and was succeeded by Roy J. Campbell who served until October 1, 1920, when the duties of this office were taken over by the present health officer.

Through the prompt reporting of contagious diseases, by physicians the health officer was enabled to isolate each case and thus prevent the spread of the contagion. Sporadic cases of measles, diphtheria and scarlet fever in this and neighboring towns have been effectively quarantined and probable epidemics prevented. The weekly reports to State Department of Health have been duly and promptly made. Regular monthly reports to the health union committee have been submitted, at their meetings, held the first Wednesday of each month in the Old Town City Hall.

The health officer recommends careful and regular inspection of all school children by physician and school nurse. Children should have defects corrected and be protected against the spread of contagious diseases.

The inspection of school buildings has been made relative to sanitary conditions and fire escapes, and suggestions have been made for improvements. Health talks have been given in the schools.

Drinking water from wells have been analyzed and reports from the State Department submitted to owners.

During the past year several nuisances have been reported; and after investigation, advice was given, in most cases conditions were promptly improved.

Every person owes a patriotic duty to his community and should report to health officer all unsanitary conditions and contagious diseases. You may save lives and help to keep your town clean, always remembering that every life saved adds to the wealth of our State and nation.

In the future let our work be united toward the making of good, clean, healthy minds and bodies, as the foundation of good citizenship depends upon the concerted efforts of all.

Respectfully submitted,

HOWARD L. JACKSON, M. D.

Health Officer.

Superintendent of Schools' Report

March, 1921

To the Citizens of the Town of Bradley:

I herewith present the annual report of schools for the year ending March, 1921.

SCHOOLS

The schools have done creditable work in the grades under the instruction of teachers who performed their duties as they understood them, subject to scholarship, training and experience. When efficient teachers are employed the schools then prosper accordingly. There should be no finality to the measure of success which we would have the schools to attain and our best teachers realize that the goal is just ahead, but they are always striving to reach it. The attendance of teachers at summer school is worthy of commendation and recognition in the wage scale because such attendance increases the usefulness of the teacher in the school. The teachers of the rural schools, although without previous teaching experience, are signally successful and satisfactory in the communities where they serve.

TEXT BOOKS

The old geographies (book one) were replaced by the new Frye-Atwood geography which is attracting favorable attention. New geographies for the upper grades are needed and a new series of grammars and of arithmetics throughout the schools. Other books will be needed during the year to replace those which are too much worn for further use. An appropriation for this purpose is suggested in the appendix.

PHONOGRAPHS—SCHOOL LIBRARIES

The village schools have purchased a cabinet for the records with the money from the previous year, and the rural schools, through the medium of entertainments and sociables, have been enabled to add phonographs and some records to the school house equipment without incurring a debt. The public generously patronized the entertainments and substantial sums of money were realized. The next objective is a good library in each school building. Interesting books are much enjoyed by children and they are unconsciously influenced by what they read, hence the necessity of careful discrimination in the selection of their books.

HAPPY JACK CLUB

Happy Jack Clubs were established in the schools to encourage the habit of thrift among the children, and we must not neglect to cultivate in them the thrifty habit of saving their pennies and dimes.

REPAIRS

Some general and much needed repairs were made during the summer vacation, but much remains to be done to the rural school-rooms and the grammar school room to standardize them. The rural school outhouses and the school house steps should be repaired before the beginning of the ensuing term, and all outhouses cleaned.

FLAG-STAFFS

The improvised flag-staff at the Blackman school house be replaced by something more substantial for the proper display of the flag. The flag staffs are generally out of commission and should be set in order before the schools reopen.

PHYSICAL EDUCATION

Instruction shall be given to pupils in all public schools in personal hygiene, community sanitation and physical education, including recreational, exercises in accordance with a course of study and plans of lessons and instruction prepared by the State superintendent of public schools. The towns of a superintendency union may co-operate in the employment of a director who shall devote his time to this department. The teachers are instructed to give definite attention daily to the physical education of the children and it is imperative that these instructions be rigidly followed.

CONCLUSION

Thanking the citizens of the town of Bradley for their co-operation, I respectfully submit this report.

GERTRUDE E. GIFFORD,

Superintendent of Schools.

OF THE

MUNICIPAL OFFICERS

OF THE

Town of Bradley

Maine

FOR THE YEAR

1921-1922

D5840

Warrant

State of Maine

Penobscot ss.

To *Frank M. Perkins*, a constable in the town of Bradley, County of Penobscot,

Greeting:

In the name of the State of Maine you are requested to notify and warn the inhabitants of said town of Bradley, qualified by law to vote in town affairs, to assemble at the town hall in said town, on the 27th day of March, A. D. 1922 at nine o'clock in the forenoon to act on the following articles, to wit:

Art. 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose a Town Clerk for the ensuing year.

Art. 3. To see if the town will vote to enter into a contract for a term of years with the B. R. & E. Co. for the installation of a water system for extinguishing of fires, or other public uses and for private use and appoint a committee and raise and appropriate money for same.

Art. 4. To choose three or more Selectmen for the ensuing year.

Art. 5. To choose three or more Assessors of Taxes for the ensuing year.

Art. 6. To choose three or more Overseers of the Poor for the ensuing year.

Art. 7. To choose a Road Commissioner for the ensuing year.

Art. 8. To choose a Town Treasurer for the ensuing year.

Art. 9. To choose one member of the School Committee for three years.

Art. 10. To choose one or more Fire Wardens as required for Chapter 108, Public Laws, 1913.

Art. 11. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State Aid as provided in Section 19, Chapter 25, Public Laws, 1916.

Art. 12. To see if the town will raise and appropriate \$533.00 for the improvement of the section of State-aid road as outlined in report of the State Highway Commission in addition to the amount regularly raised for the care of ways, highways and bridges. Report of Health Officer

During the past year increasing interest of our people in public health work is noticeable and gratifying. It is encouraging indeed to the Health Officer to have the support of more and more citizens.

The school children are showing their growing interest in all matters pertaining to health and give close attention to all talks by the Health Officer. Parents are requested and urged to report to the Health Officer all suspected or doubtful cases of any contagious disease or skin eruption.

The Health Officer recommends the careful and regular inspection of all school children by a physician and that an appropriation be made for that purpose.

The inspection of school buildings has been made relative to sanitary conditions and I must call your attention to the necessity for improvements.

Again, I must mention the importance of Birth Records, which should be filed with your town Clerk.

Several nuisances have been reported in the past year, all of which have been satisfactorily abated or removed.

Milk Inspection: With the assistance of Dr. D. K. Eastman of the Department of Agriculture practically all the cows of Bradley have been given the tuberculin test and general conditions are good. No cows having been condemned.

I wish to thank the Town Officers, the members of the Central Penobscot Public Health Association, the Red Cross and all the other public spirited citizens who have so cordially co-operated and liberally contributed to the health work in our community.

Respectfully submitted,

HOWARD L. JACKSON, M. D.

Health Officer and Milk Inspector.

School Report

To the Superintending School Committee and other Citizens of the town of Bradley:

I have the honor and pleasure of submitting my annual report as Superintendent of Schools for the year ending March, 1922.

TEACHERS—SCHOOLS—PROGRESS—ATTENDANCE

The withdrawal of teachers at the close of the spring term made necessary some changes in the teaching force. The Blackman School was the only exception to such change. It is customary to measure a teacher's success by the standard of efficiency which she maintains in her school.

Signal progress has been made in some grades, especially the primary while the general progress of the schools has been very encouraging and reflects due credit on the quality of instruction which has been given. Those who promote the welfare of the children intrusted to their care are worthy of the appreciation and cooperation which the people of Bradley evince toward the teachers.

A town is justified in demanding much of its schools. The future destiny of the child is shaped to some extent during those impressionable years of childhood when habits are formed through tendencies encouraged or corrected. The teacher is the servant of a great work and has a responsibility second to none. The parents can always promote the interests of the school, in questions of loyalty, discipline and punctuality, which arise from time to time.

The schools are provided with a "Course of Study" furnished by the Department of Education with the work clearly outlined, thus enabling the teacher to measure her progress throughout the year. This precludes the possibility of any misunderstanding as to the

required amount of work for each grade. It is true that children overlap occasionally in the work of their grade and it is equally true that other children sometimes retard the progress of their grade, but it is usually better to confine the work closely to the prescribed course of study.

Teachers who attend Summer Schools and Conventions and study the best methods of teaching are growing and progressive instructors whose services should be productive of those results for which schools are maintained.

The attendance is not as regular as it should be in some instances and this difficulty must be overcome, if possible, without recourse to stringent measures. Sufficient excuse for absence has always received favorable consideration but we must eliminate unnecessary cases of absence.

(Refer to Appendix for statistical information).

PHYSICAL EDUCATION

Physical Education has a definite and an important place in the curriculum of the school and this part of the school work must be given closer attention than formerly and the field of activities broadened to embrace open-air recreational exercises.

Children require the careful oversight of the teacher during the noon hour and the periods of recess, and this duty will not be neglected by the teacher who serves the best interests of her children. The presence of the teacher on the school grounds enables her to direct activities which have a physical value.

School ground apparatus would add signally to the enjoyment and physical upkeep of the children who would hail with joy the advent of the following:

Slides
Swing Sets

Jump Standards
Horizontal Bar Outfit

Parallel Bars, etc.

VISITORS

The teachers' registers show a comparatively small number of visitors for so large a school registration.

Parents and others are urged to visit the schools and acquaint themselves with the affairs there. A judgment passed after personal observations and friendly intercourse with the teacher is much fairer than one based on current report. These visits encourage the teacher and act as an incentive to the children in their efforts for good standing.

TEXT-BOOKS AND SUPPLIES

The books formerly in use were replaced by modern text in arithmetic, geography, history, physiology and hygiene. (Recommended by Dr. Latno), grammar and spelling together with supplementary reading matter which included "Maine My State" which has been authentically compiled with reference to its use in the schools. "How to Have Bird Neighbors" is also used in a supplementary way in the intermediate grades and awakens much interest in the children during class time.

The "History Maps" in tabular form now in use in the Grammar School affords a means of more comprehensive teaching of history and should be found in every school which embraces grammar grades. The success of these maps will vary with the skill of the teacher and this is true of any material which may be placed at the disposal of the school.

It will be necessary to have more supplementary reading matter practically throughout the grades. Since reading is fundamental we cannot afford to dispense with a variety of books for the children.

Histories which are adapted to the use of the fourth grade and health books for grade three are recommended for use next year and some additional copies of the books now in use will be essential.

The appropriation for school supplies is necessarily rather large but the use of much paper is needful in promoting the work.

Children who have been taught to conserve school property have learned a useful lesson in thrift which will not be disadvantageous to them in their training for useful citizenship.

NOON LUNCH

The Noon Lunch is receiving careful attention in most schools with satisfactory results. Equipment is required in the way of stoves, cooking and serving utensils. Cocoa has been served to the children but more than this could be done with the proper facilities.

MEDICAL INSPECTION

Medical Inspection is highly desirable in the schools and all towns should instruct the Superintending School Committee to arrange for such inspection. An appropriation of fifty dollars would doubtless be sufficient for such inspection.

FLAGS AND STAFFS

Sectional metal staffs are recommended because of their lasting qualities and the ease with which halyards are replaced.

CONSOLIDATION

Consolidation of schools is recommended as a progressive measure and towns have found such an arrangement profitable to the interests of all concerned.

SOCIAL ACTIVITIES OF SCHOOLS

The schools have been active in raising money for school equipment through the medium of social times which are enjoyed by the children and the patrons of the schools. Each building has a phonograph and good pictures and clocks are in some of the rooms as a result of this movement for school improvement.

REPAIRS

Extensive repairs are in order as follows:

Interior renovation of Blackman School room is signally essential. Blackboards for the Intermediate School and re-slatted boards in the R. Schools.

Jacketed stoves for the Blackman and the Knapp School and improved heating conditions in the Village Building.

Broad cement steps at the entrance of school buildings.

Correcting lighting in every school room. The cross lighting in the Grammar, the Blackman and the Knapp school room is injurious to the eyes and the front lighting in the Primary and the Intermediate rooms should not be tolerated. The light should fall from the left and rear or from the left, preferably from the latter. This matter should receive prompt attention.

I am calling your attention to the following from the "School Laws":

"On and after the first day of September, nineteen hundred and twenty-four all school buildings or buildings used for school purposes shall be provided with toilet facilities that shall be installed in such manner and location as to insure privacy, cleanliness and supervision by teachers and that shall meet at least one of the following minimum requirements:

(a) Flush water closets connected with sewer, filter bed, septic tanks or protected cesspool with separate compartments for the sexes, accessible only by separate passageways from school rooms or corridors.

(b) Chemical closets, of such types and manufacture as shall be approved by the State Superintendent of Public Schools, with separate compartments for the sexes accessible only by separate passageways from school rooms or corridors.

(c) Privies located in attached buildings provided with separate compartments for the sexes, accessible only by separate ventilated passageways from school rooms or corridors and constructed in such a manner that the vault of said privy shall be at least ten feet from the nearest school room wall and adjacent to the outside wall of the building in which privy is located."

CONCLUSION

Thanking you for your kindness and cooperation, I respectfully submit this report.

GERTRUDE E. GIFFORD,

Superintendent of Schools.
